### Javier Alonso

*I've been in Verona for 3 months now as part of the Erasmus for Young Entrepreneurs program, and I'm very satisfied with the experience. This European program allows me to deepen my knowledge in my field while gaining practical work experience. I work closely with Oriel, learning about European projects, facilitation, and more. The schedule is flexible—some weeks are quieter, while others involve traveling abroad for projects. I'm grateful for this opportunity, as it's helping me explore a field I barely knew, meet people from across Europe, improve my Italian and English, and experience a new city and culture. I highly recommend this experience to anyone—it's a fantastic way to spend a few months abroad while continuing to work and grow. Plus, thanks to Oriel, I've also had the chance to travel to other countries for training and workshops.*
